Robot The Street Fighter 18

Setup:

When the game starts, The Street Fighter goes through all his playing cards and puts them in the appropriate deck.

Whenever The Street Fighter gets playing cards they go to the bottom of one of his Decks – the Low Card Deck and the High Card Deck.

Cards that are 2, 3, 4, and 5 go to the Low Card Deck. Cards that are 6, 7, 8, 9, 10, Face Cards, Aces, and Jokers go to the High Card Deck.

Skirmish:

For a Skirmish, always use the top card off the High Card Deck unless the High Card Deck is empty – in which case use the top card off the Low Card Deck.

War:

To lay down cards for a Battle:
The first 2 face-down cards come from the Low Deck. The third face-down card and the face-up card come from the High Deck. (So the showing card and the first card turned up come from the High Deck if possible.) If one of the decks runs out of cards, then use cards from the other deck.

To calculate The Street Fighter's Battle Score, turn up cards until getting an 18 or higher Battle Score.
